New England Medical Center Hospital
Tufts University Schools of Medicine
and Dental Medicine and the
Bingham Associates Fund and Program*

193 Harrison Avenue, Boston, Massachusetts 02111

April 30, 1979

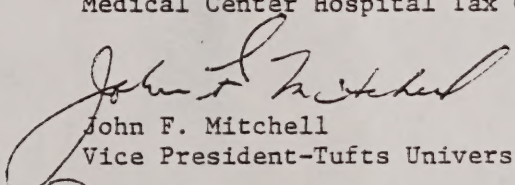

Boston Redevelopment Authority Board
One City Hall Square
Boston, Massachusetts 02201

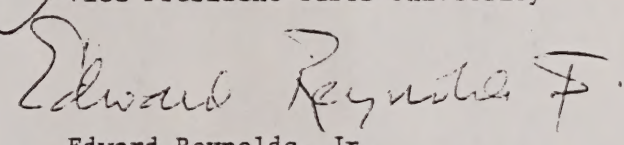

Gentlemen:

As you know, the Administrative Board of Tufts New England Medical Center (TNEMC) has authorized the establishment of a joint Tufts University/New England Medical Center Hospital Committee -- having as its purpose the establishment of a fair formula for measurement of services from the City to serve as the basis for developing an annual contribution goal for the Medical Center, to be met through contributed services, payments to community agencies and/or cash payments in lieu of taxes. You have advised us that such arrangements are currently in effect between the City and various non-profit institutions and that the City has attempted to establish a fair share "service formula" in identifying the amount of such contributions.

This letter is intended to confirm to the Boston Redevelopment Authority the intent of Tufts University and the New England Medical Center Hospital to enter promptly into such an arrangement with the City.

For The Joint Tufts University/New England
Medical Center Hospital Tax Committee

John F. Mitchell
Vice President-Tufts University

Edward Reynolds, Jr.
Director of Capital Financing
